

IRS REFRIGERATION

Installation, Repairs & Sales

Container & Commercial Refrigeration

IRS Refrigeration supplies long and short term, temporary and semi permanent on site temperature controlled storage environments. IRS Refrigeration's customers are confident they are receiving expert advice and reliable back up service, ensuring the best result every time.

Containers for Sale

Refrigerated containers are ideal for storing perishable goods for short or long periods.

IRS Refrigeration has the expertise and experience to advise on the most suitable equipment for products and conditions.

IRS Refrigeration can help you with a smaller 10' Container or the more standard 20' or a larger 40', with Ambient Temperature Control, Blast Freezer, Side or Easy doors, Locks, Alarms and Lights. We also have a range of Site & Accommodation units, General and Insulated Containers. Dual Zones (Freezer/Cool) are our speciality.

The choices become simple when you are speak with people who know what works most efficiently in different environments.

Containers for Hire

If you require storage for short periods or don't want an up-front cost, Hire is an economical option. **IRS Refrigeration** has the largest and best quality range Refrigerated Containers for Hire in South Australia. We are the only South Australian company with refrigeration mechanics on staff ensuring equipment is in 1st class condition prior to leaving our modern facilities and provide 24/7 service in the unlikely event it is needed.

Commercial Refrigeration and Air Conditioning

IRS Refrigeration mechanics are fully qualified tradesmen in servicing and maintaining Commercial Refrigeration and Air Conditioning units. While we are renowned for our expertise in refrigerated containers, we are equally proficient in installing and servicing Cool Rooms and Freezer Rooms.

Programmed Maintenance

If its' not broken don't fix it!! This might work for some equipment but it is not the optimum way to maximise the efficiency of Refrigerated Containers and Cool Rooms. Refrigeration runs most efficiently (and therefore costs less to run) if it is serviced regularly. Depending on the loads it is cooling, the age of the equipment and the environment it is operating in, we recommend annual services. **IRS Refrigeration** has on-staff expert mechanics to service all your refrigeration needs.
